A.

Appliances for Working in Gases, 6.
Accident from Electric Light at Rochester, 31.
Artificial Fuel, Preparation of, 37.
Ammonia, Gas Liquefying of, 83.
Americana, 83.
Action of Light on Oxygen, 106.
American *versus* German Petroleum, 161.
Accident Caused by Electricity, 178.
Ancient Gas Engine, 185.
American Gas Light Association, 203, 227, 251, 275.

B.

Blackburn, James, 2.
Bilboa, Lighting Harbor of, 116.
British Association for Advancement of Science, 138.
Breeze and Dry Lime for Purification, 160.
Bray, George, Lighting Power of Coal Gas, 181.
Boston Public Lamps, 211.
Bricks, Some Facts About, 250.
Boston Reduces Price of Gas to $1.80, 274.
Burning Gas Without Flame, 280.

C.

Cement, Microscopic Examination of, 12.
Cements, Quality of, 31.
" Adulteration of, 115.
Coal, Russia's Production, 31.
Charcoal, Weight of, 40.
Coal, Production in France, 63.
Coke Ovens, Employment of Waste Products, 64.
Columbus, O., New Gas Company, 83.
Chevalet's Condenser, 89.
Chicago, New Gas Company, 140.
Criticism of Dr. Siemens, 155.
Chew, John, Address of, 156.
Coal Fields of Nagasaki, 161.
Compressed Fuel *versus* Coal, 163.
Concrete Mixing, 164.
Coal Mining in New Zealand, 202.
Connelsville Coke Industry, 237.
Cost of Gas and Electricity at Worcester, Eng., 274.
Cost of Electric Lighting, Dr. C. W. Siemens, 281
Cincinnati's New Gas Works, 284.

CORRESPONDENCE—
Hot Scrubbing, 40.
Gas Purification, 116.
Quick Work, 116.
Visit of the New England Association of Gas Engineers to Waltham. 131.
The Edison System, 164, 188.
Ventilating Chandeliers, 212.
Future of Gas Business, 260, 284.

D.

Dynamite, Manufacture of, 17.
Danger of Steam Heating Pipes, 131.
Darkness in Wabash, Ind., 164.
Dry Centre Valves, Advantages of, J. Lowe, 186
Darkness in New Orleans, 226.

E.

Electric Notes, 2.
" Leak, 110.
Eddystone Lighthouse, 12.
Electricity and Fire Insurance, 17, 91.
Electric Light, Failure of, 64.
" " in Cleveland, O., 83.
" " in Providence, R. I., 83.
" " Regulations as to Fire Risks, 91.
" " Chesterfield, 202.
xplosive Phenomena in Gases, 141.
nameling Cast Iron Pipes, 164.
Electric Units, D. Monier, 178, 235, 258.
Electric Lighting in Troy, 186.
Edison's System, 188, 226.
Exhibition of Gas and Electricity at Crystal Palace, 188.
Electric Lights a Nuisance, 235.
Estimation of Sulphuretted Hydrogen in Gas, 236.
Electric Light Shareholders in London, 285.

EDITORIAL—
Gas Stoves, 1.
Gas Institute, Meeting of, 2.
Effect of High Heats upon Illuminating Powers, 29.
Recent Meeting of Gas Institute, 30.
Electric Lighting on Ocean Steamers, 53.
Firing with Hot Coke, 54.
Pittsburgh Meeting, 81, 177, 201.
Future Position of Gas as an Illuminant, 105.
Robert Briggs, Death of, 106.
Gas Heating in Paris, 106.
Progress of Gas and Electricity, 129.
James Archer, Death of, 130.
The Study of Electricity, 153.
The Elimination of Tar from Gas, 154.
Distressing Accident to Mr. Gardner's Son, 202.
The Man at the Helm, 225.
Advance in Petroleum, 225.
Thanksgiving, 249.
Lunge on Coal Tar, 250.
Dr. C. W. Siemens on Distribution of Electricity, 273.
Papers Read at Pittsburgh Meeting, 273.

F.

Franklin Institute, 38.
Fire Escapes, 63.
Future of Gas Interest, J. C. Pratt, 207.
Fogarty on Water Gas, 229.

G.

Goff, E. H., to Boston Aldermen, 9.
Gas Heating of Ovens and Kilns, 17.
Gas Exhibition, Bristol, Eng., 17.
Gas as Fuel, 13, 14, 15, 16.
Gas Institute, Inaugural Address, 32.
Gas Holder Construction, 56.
Gas *versus* Electric Lighting, 82.
Generator Furnaces, Experience with, 84.
Gas Well, 93.
Gas Light and Coke Company, 106.
Gas Motor for Carriages, 110.
Gas Exhibition at Brussels, 110.
Gas Works in China, 116.
Gas Purification, 116.
Gas for Lighting Large Spaces, Wm. Sugg, 131.
Gas Engines, Present and Future of, 136.
Grimston's New Gas Burner, 180.
Gas Heating in Potteries, 202.
Gas Most Economical Form of Fuel, 212.
Gas Meters in Quincy, Ills., 285.

H.

Hindsight, 2.
Hot Scrubbing, 40.
Hot Coke, Firing with, 54.
Harbor Buoys Lighted by Gas, 164.
Hickenlooper, Gen. A., Address of, 203.

I.

Incandescent Gas Light, 39.
Illuminating Oils, New York Standard of, 39.
Incandescent Lamps and Fire Risks, 93.
Improved Street Lighting, St. Louis, 155.
Iron Surfaces, Painting of, 163.
Improved Gas Engine, 237.

L.

Lead Pipes and Contamination, 36.
London Gas Companies, 38.
Loudon Water Supply, 40.
Livesey, George, Gas Holders, 56.
Lighting Power of Coal Gas, G. Bray, 181.

M.

Mining Coal, New Method, 62.
Mining Accidents, 92.
Mechanical Stoker, 115.
Monier D., Electric Units, 178, 235, 258.
Metallic Gas 211.
Milton, Pa., New Gas Works, 250.
Manufacture of Gas, A. L. Allen, 252.
Montreal, Price of Gas, 260.

N.

New England Association of Gas Engineers, 107
Naphthaline, 116.
Natural Gas in Bloomington, Ill., 236.
Novel Conflagration, 250.
Nashua, Elects a Gas Man for Mayor, 260.

O.

Obituary, James Blackburn, 2.
" James Archer, 130.
" Robert Briggs, 106.

P.

Pittsburgh Industries, 6.
Protection from Fires, 12.
Petroleum Outlook, 55, 83, 130, 178, 202, 250.
" Surprises and Developments, 64.
" in India, 92.
" and Electricity as Competitors of Gas, 156.
" Discovered in the Argentine Republic, 226.
Proposals for Gas in New York, 250.
Pintsch System of Lighting, 274.

R.

Regenerative Furnaces, Birmingham, 40.
Regnerd's Incandescent Lamp, 55.
Refrigerator Driven by Gas, 187.
Reduction in Price of Gas, 188.
Regenerator Furnaces, A. Weber, 277.
Roofs of Tar, 260.

S.

St. Louis Water Works, 9, 260.
Safety Lamps, 31.
Stevenson, C. W., Address of, 32.
Steel Melting by Electricity, 64.
Snell, H. S., Cost of Electric Light, 82.
Society Technique, Meeting of, 90.
Scientific Paradoxes, 92.
Slater, A. B., Address of, 107.
Sugg, William, Lighting Open Spaces and Large Buildings, 131.
Siemens, C. W., Address at Southampton, 138.
Seasoning Building Woods, 162.
Street Lighting in Fond du Lac, 164.
San Francisco, Reduction in Price of Gas, 188.
Stern, Edward, and Gas Commission, 250.

U.

United Gas Improvement Company, 110.
Utilizing Liquid Carbonic Acid, 117.
" Wast Coal Dust, 250.

V.

Ventilation by Gas, 31.
Viscosity of Gas, 69.
Valon, W. A., Generator Furnaces, 84.

W.

Western Gas Association, 3.
West of Scotland Association, 10.
Waste of Heat, 7.
Woods, South American, 12.
Waterproof Cement, 140.
Washed Coal, Efficiency of, 237.
